Coronavirus.....What is it?

It is like a nasty cold or flu. We all have to stay at home so we don't catch it and pass it on to people who are already ill or old in case it makes them very poorly. People are worried that if everyone gets poorly at the same time there won't be enough space in hospital. This means we have to help to slow the spread of the virus to help people that we love and the nurses and doctors working hard.

Having so much time at home gives us lots of time to think about ourselves and our feelings. SO how are you feeling?

I am delighted that I have been able to spend more time outdoors and in the garden but I am also very frustrated that I can't see my friends face to face and homeschool is harder than going normally to school.

What will you remember about Lockdown?

I will remember the things we did as a family in lockdown like zooming our family on christmas day and going for socially distanced walks. I will also remember having to do home school.

What will you remember about Lockdown?

I will remember all the long homeschool days and all the fun my mum tried to make to cheer me and my brother up. I will remember how emotional it was and how many times I cried because I couldn't see my friends or go to school. Last but not least I will remember how much I've changed, since the start of Covid 'till now.
