

Stoke Bishop C of E Primary School

Photography and Filming Policy

'Believing it's Possible'

Our community sits between two rivers that have historically supported growth and success. Working together with trust and passion, we learn, grow and thrive as we embrace the possibilities of life's journey: Understanding that, "Wherever the river flows, life will flourish" – Ezekiel 47:9

The purpose and scope of this policy statement

The purpose of this policy statement is to:

- protect children and young people who take part in Stoke Bishop Primary School services, events and activities, specifically those where photographs and videos may be taken.
- set out the overarching principles that guide our approach to photographs/videos being taken of children and young people during our events and activities.
- to ensure that we operate in line with our values and within the law when creating, using and sharing images of children and young people.
- To give clarity for all parents, visitors and staff regarding the principles and practice we aim to maintain within our school community.

This policy statement applies to all staff, volunteers and other adults associated with the school.

This guidance is following a framework set out by the NSPCC.

Legal framework

This policy has been drawn up on the basis of legislation, policy and guidance that seeks to protect children in England

We believe that:

- children and young people should never experience abuse of any kind
- we have a responsibility to promote the welfare of all children and young people and to take, share and use images of children safely.

We recognise that:

- sharing photographs and films of our activities can help us celebrate the successes and achievements of our children and young people, provide a record of our activities and raise awareness of our organisation
- the welfare of the children and young people taking part in our activities is paramount
- children, their parents and carers have a right to decide whether their images are taken and how these may be used, regardless of age, disability, gender reassignment, race, religion or belief, sex or sexual orientation
- consent to take images of children is only meaningful when children, their parents and carers understand how the images will be used and stored, and are fully aware of the potential risks associated with the use and distribution of these images
- there are potential risks associated with sharing images of children online.

We will seek to keep children and young people safe by:

- always asking for written consent from a child and their parents or carers before taking and using a child's image. Permission will be given by parents or carers on induction at school, with the opportunity to change that permission at any point if they choose to.

- always explaining what images will be used for, how they will be stored and what potential risks are associated with sharing images of children
- making it clear that if a child or their family withdraw consent for an image to be shared, it may not be possible to delete images that have already been shared or published
- using only the first names of children whose images are being used in our published material whenever possible
- never publishing personal information about individual children
- making sure children, their parents and carers understand how images of children will be securely stored (including how we will control access to the images and their associated information)
- reducing the risk of images being copied and used inappropriately by:
 - only using images of children in appropriate clothing (including safety wear if necessary)
 - avoiding full face and body shots of children taking part in activities such as swimming where there may be a heightened risk of images being misused
 - using images that positively reflect young people's involvement in the activity.

We will also develop a procedure for reporting the abuse or misuse of images of children as part of our child protection procedures. We will ensure everyone involved in our organisation knows the procedures to follow to keep children safe.

Photography and/or filming for personal use

When children themselves, parents, carers or spectators are taking photographs or filming at our events and the images are for personal use, we will publish guidance about image sharing in the event programmes and/or announce details of our photography policy before the start of the event. This includes:

- reminding parents, carers and children that they need to give consent for the school to take and use their images
- Explaining that 'photos or videos taken during the event of anyone other than your own child, cannot be shared on any digital platform, including Whats App'.
- Specifically telling parents and carers that they should focus their photography or filming on their own child.
- informing children, parents and carers who they can talk to if they have any concerns about images being shared.

Photography and/or filming for Stoke Bishop Primary's use

We recognise that third-party group staff may use photography and filming as an aid in activities such as music or drama. However, this should only be done with the school's permission.

Children, young people, parents and carers must also be made aware that photography and filming is part of the programme and give written consent.

If we hire a photographer for one of our events, we will seek to keep children and young people safe by:

- providing the photographer with a clear brief about appropriate content and behaviour
- ensuring the photographer wears identification at all times
- informing children, their parents and carers that a photographer will be at the event and ensuring they give written consent to images which feature their child being taken and shared
- not allowing the photographer to have unsupervised access to children
- not allowing the photographer to carry out sessions outside the event or at a child's home
- reporting concerns regarding inappropriate or intrusive photography following our child protection procedures.

Photography and/or filming for wider use

If people such as local journalists, professional photographers (not hired by Stoke Bishop Primary school) or students wish to record one of our events or our children at a third party event and share the images professionally or in the wider world, they should seek permission in advance.

They should provide:

- the name and address of the person using the camera
- the names of children they wish to take images of (if possible)
- the reason for taking the images and/or what the images will be used for
- a signed declaration that the information provided is valid and that the images will only be used for the reasons given.

The school will verify these details and decide whether to grant permission for photographs/films to be taken. We will seek consent from the children who are the intended subjects of the images and their parents and inform the photographer of anyone who does not give consent.

At the event we will inform children, parents and carers that an external photographer is present and ensure the photographer is easily identifiable, for example by issuing them with a coloured identification badge.

If Stoke Bishop Primary School is concerned that someone unknown to us is using their sessions for photography or filming purposes, we will ask them to leave and (depending on the nature of the concerns) follow our child protection procedures.

If consent to take photographs is not given

If children, parents and/or carers do not consent to photographs being taken, we will respect their wishes. We will agree in advance how they would like to be identified so the photographer knows not to take pictures of them, and ensure this is done in a way that does not single out the child or make them feel isolated.

We will never exclude a child from an activity because we do not have consent to take their photograph.

Storing images

We will store photographs and videos of children securely, in accordance with our safeguarding policy and data protection law.

We will never store images of children on unencrypted portable equipment such as laptops, memory sticks and mobile phones.

Wherever possible staff should use school equipment but we recognise that there are situations where personal equipment is an effective solution. Stoke Bishop expects all staff and volunteers to delete any photos and recordings of children taken on personal equipment as soon as it has been transferred to the school system. This should always be done within a timely fashion.

Related policies and procedures

This policy statement should be read alongside our organisational policies and procedures, including:

- Safeguarding and child protection policy and procedures.
- Code of conduct for staff and volunteers.
- Online safety policy and procedures for responding to concerns about online abuse.
