

At Stoke Bishop, all pupils will be given the opportunities to equip themselves with the knowledge and skills they need to express their individual creativity through their own works of Art and Craft. They will have the courage to "have a go" at exploring and experimenting with their art work without being afraid to make mistakes. Children will feel passionate and motivated about Art and feel confident about talking to others about the work of other artists and designers using the language of our Art concepts.

Y5 & 6
